

## ***NEW FOREST AVIATION GROUP***

As a group of like minded people with an aviation interest we usually meet to listen to a speaker and to chat with friends during a tea break.

### **'The Magic That Was The Harrier'**

by Chris Marshall

**Friday 14<sup>th</sup> January 2022** *(Covid permitting)*

Chris has an amazing breadth of experience both from flying the aircraft as well as organising its operations. The illustrated talk will show the research aircraft that led to the Harrier and its world beating concept of vectored thrust. What is needed to operate the Harrier away from base will be explained along with the science behind the ramp used on the Royal Navy's aircraft carriers. The Harrier's capabilities were improved dramatically during its service life before the RAF ceased Harrier operations in 2011 although other nations continue to operate this unique aircraft.
